

GLOBAL DRONE OUTLOOK 2020

URBAN AIR MOBILITY

The UAM industry will continue to grow, with drone deliveries being adopted across the globe

COUNTER-DRONE TECHNOLOGY

Due to security concerns, the counter-drone market will grow rapidly.

UNMANNED TRAFFIC MANAGEMENT

The introduction of remote ID will help build a UTM system in the US, and likely other nations.

AUTOMATION & ADOPTION

Increased automation, makes drone adoption easier and more beneficial, and therefore more likely

STANDARDS

Following the release of the first ISO standards, safety management will become a major regulatory topic
